

The StartAéro 360° initiative

KEY ASPECTS OF THE STARTAÉRO 360° PROGRAM

Objectives

- Accelerate transformation of the aerospace supply chain.
- Support Québec start-ups and SMEs during their pre-commercialization phase.
- Introduce “new technologies” into the aerospace supply chain by development of collaborative operational demonstrators.

Key figures

- A project of \$4.3M, supported by Canada Economic Development for Quebec Regions with a public contribution of \$3 M.
- Support to ~ 30 SMEs over 3 years

Développement
économique Canada
pour les régions du Québec

Canada Economic
Development
for Quebec Regions

SIX TECHNOLOGY AREAS

Clean
Technologies

Big Data
And Artificial
Intelligence

Advanced
Manufacturing
4.0

Autonomous
Systems
(Drones / E-
VTOL)

Virtual
Design And
Testing

Additive
Manufacturing

Value to end-users

- Operational demonstrators (TRL 7 to 9) adapted to your needs.

SERVICES PROVIDED TO MEMBER COMPANIES

- **Active monitoring of opportunities** via local experts:

CATOL AÉRO

LSI

EURODEV

- **Mapping of the Québec technology ecosystem** to locate pertinent capabilities

ton équipier
Test de marché > Lancement de produit > Vente

- **Training modules:** IP management, partnership culture, financing, market development.
- **Financing of support** to marketing of an operational demonstrator.
- Assistance in development of a demonstrator.
- Planning **local and international targeted missions.**
- A dedicated information platform: www.startaero360.ca.

MEMBERSHIP ELIGIBILITY CRITERIA

To join the program, start-ups or SMEs must:

- Substantiate the innovative aspect of their solution.
- Have less than 250 employees.
- Have a Québec Enterprise Number (NEQ).
- Solutions have a TRL of 7 to 9.
- One-time entry fee of \$900.
- Pre-disposition to collaborate with other companies.

A DEDICATED PORTAL

startaero360.ca

www.startaero360.ca

A networking platform to:

- Promote the integration and commercialization of disruptive technologies.
- Facilitate networking and growth of Québec companies.
- Domestic and international visibility.

It presents:

- Quebec start-ups and SMEs active in the target technology areas.
- Business opportunities in these sectors.
- News and events of the ecosystem and/or the program.

THE PORTAL HAS THREE LEVELS OF ACCESS
